

PROFESSIONAL PROFILE

Web designer and developer with twenty years of experience in a range of design principles, including graphic design, printing, and quality assurance.

WORK EXPERIENCE

Revcontent, 2016 – 2020

QA Engineer

- Managed deployment releases from development to staging and production.
- Tested new and current functionality.
- Verified and reported discovered defects using JIRA.
- Performed functional, smoke, regression, and user acceptance tests on various browsers.
- Validated data using MySQL, Aerospike, and CloudWatch logs.
- Created and maintained automated API scripts using Postman.
- Created front-end automated tests using Cypress and Nightwatch.
- Created and maintained a front-end website with all the necessary tools and documentation to execute tests. This was widely used by new and current employees.
- Mentored new and current team members on new processes and tools.

Powerchord, 2011 – 2016

QA/QE Specialist

- Executed test plans, test cases and scenarios; regression, smoke, ad-hoc tests and also executed manual and automated test scripts for all clients.
- Identified defects utilizing creative, 'outside the box' analytical processes.
- Collaborated with Developers, Project Managers, and Account Managers to prepare and plan for future projects, iterations, and to find solutions for current and potential bugs discovered.
- Modified and created requirements for features of the applications.
- Researched testing tools to can improve efficiency and introduced them to the team for further analysis.
- Reported metrics on bugs discovered, tested, and resolved.
- Mentored new and current team members on new processes and tools.

Creative Support

- Designed digital and print material.
- Coded HTML emails and landing pages.
- Fixed and updated creative projects that were delivered incorrectly by freelancers and external vendors.

Innovated Graphics, Inc., 2001 – 2010

Owner and Operator

- Developed and built a business from start-up to generate six-figure annual sales and over 300 clients.
- Introduced a new, low-cost effective solution for high quality printed materials while maintaining the integral quality of the product.
- Collaborated with clients to incorporate their vision into and tangible product based on their needs to maintain a visible image.
